VENTILATION DUCTS & FITTINGS

Manufacturer of KEN-LOK circular pressed fittings

Air Spiralo Group is a leading manufacturer in the European ventilation industry. We manufacture circular metal ventilation ducts, pressed and non-pressed fittings, rectangular products and high-quality components. Our KEN-LOK range is the standard in the installation sector because of the high airtightness class ATC2. Since our production, distribution and warehouse activities are conducted all over Europe, we are able to deliver our products to customers with optimal efficiency and speed.

Reliable manufacturer of first-rate ventilation products

- The complete product range is available through technical wholesalers.
- An innovative inventory and warehouse management system supports our customers inventory management.
- Modern logistical and ICT systems support our production processes and foreign deliveries.
- We offer an exceptionally high quality of service: a deal is a deal.
- Partnership, reliability and quality are the core values of our international business operations.
- We strive to integrate as many sustainable methods as possible within our machinery and operational processes.
- Independent family business with locations in Netherlands, the United Kingdom, Finland, Poland and Spain.

Our fittings are available in two versions:

- KEN-LOK: *with* rubber seal
- SPIRALO: *without* rubber seal

www.airspiralo.com

Highest airtightness ATC2, easy to install, save time, installation without tape, long lifespan, ideal for visible systems. The ventilation products of Air Spiralo make life easier for you.

Get started right away with our installation instructions videos

KEN-LOK makes life easy. Our KEN-LOK products are Plug & Play so quick and easy to install. In addition, we help you with short installation videos online.

Useful tips & tricks

Is it the first you work with our KEN-LOK products or do you want to brush-up your know-how? The films will show you in clear steps the different connection methods of our ventilation products. We also give you useful tips. Installing our products was already easy, with the help of these instructions it becomes even more simple.

Does the installation really go that fast?

Yes indeed! Our installation videos provide the proof. With these instructions you can install our ventilation fittings quickly and solid.

KEN-LOK

High-quality ventilation products

Our products are the main components of sustainable and energy-efficient ventilation systems. We manufacture our products in-house using the most advanced production lines available. Throughout the entire high-tech production process, we conduct inspections to safeguard compliance with our high quality standards. TÜV Rheinland conducts quality audits and certifies our products for production, dimensioning and airtightness.

These are the international standards that our ventilation products comply with:

- **Ducts**
NEN-EN 1506:2007 - NEN-EN 12237:2003 - NEN-EN 10346:2015
- **Fittings**
NEN-EN 1506:2007 - NEN-EN 12237:2003 - NEN-EN 10346:2015
- **Dampers**
NEN-EN 1506:2007 - NEN-EN 10346:2015 - NEN-EN 1751:2014
- **Silencers**
NEN-EN 1506:2007 - NEN-EN 7235:2009 - NEN-EN 10346:2015
NEN-EN 15727:2010

Scan the QR-code to view all certificates on our website:

Sustainable production for a healthy and comfortable living environment

At all our production sites, we manufacture our products using the latest high-tech machines and a constant focus on safe and sustainable entrepreneurship. Furthermore, we constantly strive to implement more efficient, energy-saving and cleaner work methods in our processes and create a pleasant and safe work environment for our employees.

We are proud of the fact that we, as a manufacturing company, became one of the first organisations in the ventilation sector to obtain a CSR certification in 2013, in accordance with the assessment criteria drawn up by the Metaalunie MVO-monitor (basis ISO 26000).
